Hi and welcome to ***Instant Newbie Profits!*** If you are simply a man or woman who wants to *very quickly* put some extra money in your pocket for food, bills, rent, or just plain, “making ends meet...” then this complete turnkey money-making system designed **especially for beginners** is the most *exciting* and rewarding opportunity you will ever have **instant** access to!

And here's why. You see, **I have revolutionized making money online** by creating a “*Newbie Friendly*” program, myself and others use to make a steady flow of online cash paid **instantly** and **directly** to our Paypal or Alertpay accounts in hours – NOT days.

Instead of being like the other online guru's who make their money off of what I call, “*newbie stupidity...*”

I Have Created a Simple and Fool-Proof Program That:

“If You Can Copy And Paste, Then You Have What It Takes To Quickly And Easily Drive More Cash-In-Hand, Eager-To-Buy Leads And Prospects That Earn You \$100-\$300/day - Once You Start Using This Magic Incentive.”

- 1. This is a very easy way for you to make extra money when you need it the most***
- 2. You won't need to upload your own website because I personally setup and host your website for you***
- 3. Exclusive video tutorials, extensive marketing tools, training and my personal support teaches you step-by-step how to quickly put money directly into your pocket in hours***
- 4. You don't have to join any type of program***
- 5. Cash is deposited instantly into your Paypal or Alertpay account – no waiting for commission checks or some company to pay you***
- 6. You keep 100% of the money you receive – no splitting it with anybody***

7. There are no marketing expenses required

8. You won't need to sell your car, rob a train or drain your bank account to get started and bringing in the cash

9. You can be totally “up and running” in 24 hours and can expect your first cash deposits in less than 48 hours

10. You can stop wasting your time and money on all the junk and hype out there and going head-to-head against people that have a whole lot more experience than you.

11. And all you need to get started is a domain name

FACT: Most people never make money online

I'm fairly certain that you have already been down this path and know for yourself how discouraging this can be – and unfortunately, this has become the *norm* because most people can't compete on the traditional playing field.

So First Step: Stop Trying To Sell Your Way To Online Profits! **Make 'em Say “Yes!” With The Magic Incentive Below That Gets Your Website Visitors Buying... NOW!**

Stop “convincing” prospects and start Effortlessly ATTRACTING them instead!

By using the *Magic Incentive* inside Instant Newbie Profits, you “attract” prospects, perhaps for the first time in your life, instead of chasing them down like a crazy person. You never would of thought this was possible, but this is *exactly* what happens. Matter of fact, after years of nothing but frustration, hopelessness and anxiety...

Suddenly... Prospects Can't Seem To Resist You!

The good news is, there is only ONE thing you need to understand. In this system I'm going to show you how to give something away (for FREE) that in this economy, every person on the planet is interested in and almost every time I give it away, I make money! Imagine being able to offer something that basically every person in the world wants and really needs right now for FREE and make money at the same time.

This alone, gives me the power and control to make money online, plain and simple. And, it also gives me an unfair advantage over every other competitor of mine out there in the marketplace.

This system is so powerful and fool-proof that almost anyone that tries it, can start making a significant income almost immediately – usually within hours.

The even better news, is that you can use MY system for yourself. And you'll make the

money...not me. You keep **100%** of the income for yourself and it's paid directly to your Paypal or Alertpay account (the choice is yours)!

All you have to do is just follow a simple step-by-step plan that I have tested myself to generate anywhere from \$100-\$300 per day.

The system is already completely setup and waiting on you. That means you could be plugged in and ready to start making money in just 24 hours from right now. I said that we are giving away a Free Product but common sense will tell you that if you're going to make money, you have to sell "something"; a product, service or something. Obviously money has to exchange hands if any of it is going to land in your pocket, right?

You'd be correct, but hear me out! This is probably the nearest thing to a perfect money maker ever created! And if you think you know what's coming next... I guarantee you don't.

You see, although this system gives something away for free, it is also selling something. It has to if you're going to be getting instant cash payments direct to you Paypal or Alertpay account, right?

What makes this even more extraordinary however, is the fact that what I sell is not actually all that different from what other people sell. In fact, you may well see other people selling similar things.

So, even though this program does NOT have any one-of-a-kind or unique product, it does have one very unique key, almost magic ingredient that no one else has:

Everyone else is selling these products and as a result they only manage to make between 1-3 sales for every 100 people they present it to. That's crazy and a very difficult way to try and make any money.

But remember what I said about the *magic incentive* that makes my website visitors say YES. I've given people a real incentive to buy from me. I make them an offer they can't resist; an offer so appealing, that practically everyone I show it to simply can't help but make the purchase.

Okay, I may have gotten a bit carried away – it's actually about 50%-60% which is a little short of everyone.

THIS is what makes my prospects want ME, as opposed to wanting my competitors... my *magic incentive* gives ME a lot more leverage and better positioning, which is **exactly what makes Instant Newbie Profits convert at rates up to 60% and sometimes even higher!**

Just think about it for a second. Almost every single person who takes what I give out for free, usually always ends up buying what I'm selling. And remember that just about

everyone in this economy wants what I give away; they're almost lining up to get what I give out for free...and a huge majority of them will certainly end up buying what I'm selling.

Now don't you dare walk away or close this book when I explain this next bit. You'll be walking away from easy income simply because you "think" you know what I'm trying to offer or where I'm going but you are almost certainly not right. Read on and be surprised...

What I'm about to say is a KEY PART of my system, but IT IS NOT the final twist that makes this system so brutally effective for the average person with no experience. You have to stay with me and hear me out. Trust me it's worth it!

It's simple, I sell a collection of software and ebooks that teach, train, and assist people in becoming successful and more profitable online marketers. It contains everything they need to build a profitable online business; platinum software, social media tactics, sales tactics, an in-depth 38 video course on making more money from their website traffic, list builders, tips, tricks, techniques and strategies...you name it, it's in this package.

You Can See the Entire Package at the End of This eBook

Anyone who's interested in starting or is working with Internet Marketing as a means to create additional income in this economy is going to want at least some of these things that this package offers. Most people have already bought products that are similar to or on the same topics as some of the items included in this collection, but there are bound to be some they don't yet have and will appreciate getting their hands on them to use...especially at such a ridiculously cheap discounted price and **each with Full Master Resell Rights!**

Still, if I just tried to sell them from a normal website like everyone else is doing, I would probably get the normal results; between 1-3% sales and even getting those returns would be difficult, time consuming and costly to advertise. Who can afford that in this economy?

Even though anyone who's trying to make money online is going to "need" these products as some point, the fact is that the vast majority of people simply won't buy these exact items from me or one of my websites – just too much competition out there.

There are so many other people selling the same information and tools under different names and from different websites, that competition is extremely fierce and 1-3% is all a *normal* website with *normal* selling strategies could ever expect to make.

But I've flipped the situation on its head and boiled everything I've learned about making money online, creating emotionally compelling *magic incentives*, sales messages and effective direct-marketing strategies, into a unique selling system that lets me cut right through all the clutter in my prospects noisy lives.

Instant Newbie Profits gives me the power to make my prospects take action, NOW!

Instead of having only 1-3% of people who see my offer actually buy from me...I now actually have days where only 1-3% of people walk away and don't buy from me.

I've completely reverse the trend and **achieved all this without ever “trying” to sell anything**. I don't need a first page listing on Google, an expensive pay-per-click (PPC) campaign, or knowledge of complex online marketing strategies.

What I do have is an incredible incentive that convinces an extremely high percentage of people when they see this offer, that only a person that just plain doesn't “get it” would pass this purchase up.

It's an incentive that makes every sale almost a foregone conclusion. An incentive that means making the sale is a virtual certainty.

It's an incentive that means my computer becomes almost like my own **personal ATM that I can withdraw money from whenever I want.**

But What If It Was You Instead of Me?

What if you could somehow magically “step into the shoes” of a veteran marketer?

Keep reading and get ready to use a little imagination on that last thought....

Before I reveal the final twist, I want you to imagine that this **fantastic system** I've described is not mine...**it's YOURS!**

Imagine it was **not me** selling this product with the magic incentive that converts up to 60% sales...**it is YOU!**

Imagine that you were giving away for free, something that people were lining up to get and then up to 60% of those people ended up stuffing cash in your pocket for a product you promote.

That would be the dream system for you wouldn't it?

Well that's precisely what You're going to get!

Let me tell you what my system is. And remember:

THIS IS NOT THE FINAL TWIST! YOU HAVE TO KEEP READING!

I give away something for free that every person on the planet is interested in. I give away an ebook that explains a system that shows people how they can make easy money online...*this* free ebook.

And I'd be willing to bet all the tea in China that you too wanted to find out for free how

you could make easy money, so you downloaded this ebook without hesitation....and that's exactly what everyone else does. (Don't walk away thinking this is just a big con; you haven't heard the whole story yet!).

Let's be candid. It doesn't take a lot of effort or talent to give away a FREE ebook on "How to Make Fast, Easy Money Online" (in fact it's about as easy as anything could possibly be)

In this free ebook, I promote and sell a product which is a collection of software and marketing information and the clever part is I manage to sell this product to over half the people who read this free ebook.

Yes that even includes you. In fact I can almost guarantee that you will buy the product being sold here and so will almost everyone else who reads this after you.

NOT because it's a collection of products that has been keeping you awake at night because you wanted them so badly, but because they are in fact good, usable products that can be helpful to anyone looking to make money online and MUCH MORE IMPORTANT is that they are the gateway to plugging you into a system that can almost effortlessly bring you in a \$100-\$300 dollars a day or more in income. That's why!

I think I know what you're thinking, but stay with me because here comes the best part...

The Final Twist!

When people hit the payment button and buy the product from this ebook, it's not my payment button....IT'S YOURS!

People will visit your personal website that looks identical to mine and download this same free ebook; but it won't be mine, it will be yours.

(I even set it up for you, so there is no hassle and you get to own a turnkey Internet business that makes \$100-\$300 a day or more).

Also, I even set up your customers websites and their customers, customers...**all you do is send people to your website and collect your money...that's it!**

I could easily bet that you are not reading what is really my web page right now. Sure, I wrote it and I created the system, but odds are this is somebody else's site that has already grabbed this amazing system to use as their own just like you can now.

When a person decides (like they most often do) to buy the product, **every penny they pay will go directly to you.** I won't get a cent, there's nothing in it for me; it all goes to you. You are not an affiliate that only gets a percentage of the payment – **YOU GET ALL OF IT!**

Did I just hear your brain go Ca-Ching!!!!?

That is the real secret to why this is so powerful. When you buy the product from this ebook, you'll get one other **VERY IMPORTANT** thing thrown in as an added **FREE BONUS**. The *magic incentive* that convinces almost every reader of this free ebook to make a purchase!

You'll get the right to re-sell this collection of products as if it was your own using **your own personal identical copy of my website that I set up**, my marketing materials and a copy of this exact ebook with **YOUR** payment link.

All you need to do is fill out a very quick and easy form after you purchase telling me some very basic information and the email address associated with your **Paypal**, or **Alertpay** account and click "submit". When you do that, your website will be set up with **your payment button** in this free ebook instead of mine and **you will start to receive 100% of the payment directly into your account!**

From then on, whenever someone downloads your "copy" of this ebook, you'll be the one they buy the product from. You keep every single penny and I get absolutely nothing. Just like what is happening right now as I'm sure the payment button in this free ebook you're reading is probably not actually mine.

You can see how the system effectively becomes completely yours. I set up the website, I set up your customers website and their customers customers, I wrote the free ebook, I put together the product package and I created all of the marketing and sales materials. Heck, I even handle the hosting and delivery of the products and I'm here to work with anybody that needs help, **but now you are making 100% of the money** from it. *You might want to re-read this paragraph as yes; you get everything I have created and built to use as your own, **totally yours – 100%***

If you can just get your head around how unusual this is, I'm pretty sure you'll agree this is probably the easiest no-brainer thing you've ever seen right?

Well that's why this is so fantastic. Almost everyone who reads this thinks exactly the same thing and buys so they can get in on this crazy deal. At this point, people don't care whose payment button it is – it makes absolutely no difference in what they get. As I said earlier, I'm sure you are probably not on my personal site right now – so what? - Right?

Of course, you want it to be your payment button on the system. So you buy the product to be able to add your pay link into this ebook...and that's precisely what everyone else does and it's what generates up to 60% conversion rates. **Simple but extremely effective!**

I know of no better way to instantly be plugged into a proven money-making business that has already been totally set-up for you.

Next, I've put together some of the most common questions people ask to try and help clear up any questions you may have starting with the BIG ONE that everybody asks:

Question: This just doesn't make any logical sense. Why would you give me something that I earn 100% on when you did all of the work? Where's the catch? What's in it for you? No one would do something like this unless they were up to something!

Answer: There is no “catch” but yes, I am “up to something” and there is something in it for me.

I promise you that I make no money when someone buys from your payment link. There are no hidden secrets or extra expenses you will get surprised with. No memberships, no recurring billing, no subscriptions, I don't take a commission, percentage or cut – this whole system becomes totally “your deal.”

However, I do admit that there is something in it for me and it's called Branding. My name really is Lauryn Herbert and I've quietly made thousands in online marketing over the years and I'm ready to take it to the next level.

Even though the website you'll be using and this ebook will be yours – the fact remains that both have my name all over them, so in effect you are helping to advertise me. This means that my reputation as a “go to” person that helps people will be enhanced and good PR is always an asset. Also, it means loads of new people like you that will eventually come back to me as paying customers for my other products and services that I sell. So yes, I have a lot to gain over the long run.

Added to this fact that this costs me nothing – zip, nada, \$0 – so I get this advertising and branding promotion for free. The web page is done and in place, this ebook is finished and on my personal website hosting server, the products are digital and all ready to download – it's going to cost me absolutely nothing to fulfill this order for whosoever website you may be on right now.

The important thing is that I know it works for you and the hard work has already all been done for you. Otherwise, I guarantee I would be hiding behind an assumed name or pen name to avoid reverse-branding!

Question: OK – but how can I make it work if I don't know anything about how to market? How do I get people to my website?

Answer: Not a problem as I have put together **a complete Marketing Section; extensive FREE marketing tools and even video tutorials** found in my members area that you'll receive as part of your product download, which will show you exactly the best step-by-step methods to promote your site that are all either free or very low-cost and proven to work.

Did I mention that I've also created an Incredible FREE Marketing Tools Section and

Video Tutorials that you can access at any time? You'll find lots of sample ads, guidance and exact direction there. Just sign-up for my ongoing updates once you get to my members area.

Keep in mind that the conversions are VERY HIGH so that you really only need to show it to a moderate amount of people each day to make a decent income. You can promote it through classified ads (very, very effective), email promotions, pay-per-click, ezines, your own website and anything else you can think of and I will be giving you my Marketing materials with exactly the ways I personally have found to be the most effective and least expensive (mostly free) ways to expose people to your website and generate traffic.

Question: I have promoted other products online but never got anyone to buy from me. How is this different?

Answer: Well, think about it for a second. You are going to offer a Free ebook that almost everyone on this planet wants to read. Who doesn't want to make money right now in this economy? You didn't hesitate to grab your copy of this free book did you?

Almost everyone that you send to your website will download the ebook and many of them will then make the purchase so they can start selling it themselves and make the easy profit with a totally turn-key, automated system just like you will be doing.

Honestly, once you see how easy it is to make money with it and gain some momentum, you won't be able to stop it.

Question: But why is this so popular? Why are so many people prepared to buy this product compared to any other?

Answer: Simple. You will be giving away a free ebook that tells people how they can make money without the need of knowing how to set up a website, without ever trying to sell anything, without having to share any of the money they make and without any ongoing fees or expenses. Who wouldn't be interested in reading a free ebook that does all that?

You'll be able to give this away to just about anyone and everyone with ease because they're actually out searching for this kind of information and solutions to helping them make ends meet. Almost everyone who sees my site downloads the book without any hesitation. You did didn't you?

Most importantly is that if they understand the system after reading the book, they will want to buy the product because of the free incentive bonus I throw in to get their own payment link in a copy of the book so that they can plug into this easy money making system just like you have. They can be in business in no time!

Everyone who reads this can see the same potential which is what makes it so effective, (unless they just plain don't understand it and I probably really can't help those people).

It's awesomely powerful in the way it makes money.

Also, the price is so low. There's virtually no one on the planet who can't afford a one time payment of only \$27 with no ongoing hosting or membership fees to have their business totally taken care of for them.

(The product sells for \$27 by the way). If it was any higher, people would maybe have to give it some thought, but give them all of this for only \$27 and most people won't even think twice. And that's great news for you.

For most folks who contemplate a home business, a low-cost or no-cost solution is not only nice, but also very necessary.

People also know that with just one sale they will make their money back completely. Which makes this a practically risk-free, no brainer opportunity too good to pass up! There's no waiting around to recoup the costs of starting your business.

Question: I'm a total computer dunce, is this complicated? What do I have to do?

Answer: It's simple. First you buy the product by clicking the Payment Link at the end of this section of the ebook. You'll then get redirected to the website this ebook is connected to. Simply scroll down to the bottom of the website and click the "buy now" button. You'll then get redirected to the members area where you can get your product and your money making website after you successfully make your payment.

In the members area, there are simple step-by-step instructions and a form with just a few fields in it. It asks you to enter your Paypal or Alertpay email address, your domain name and that's basically it and you just click submit. Once you press submit, I'll make your website live and insert your email address into the payment details of the ebook and website within 24 hours and you will be ready to promote your business.

Now every time someone clicks that link, they will be sent to your website homepage that looks identical to mine (just like where you got this free ebook from) but instead of downloading my ebook, they'll download yours. It looks identical to this one, but it will have your Payment Button in it instead of the payment button of the person that sent you here today.

Now you just give people your link and send them to your website to download the book. You can do this in any way you like. Include your link as a signature line in your emails, offer it to people as an incentive to join your mailing list, give it as a free gift for other promotions you're making...etc., etc. I will be giving you bunches of no-cost and low-cost ways in the Marketing Guide and Marketing Tools Section of the members area that you will receive with your product download.

Question: What is Paypal, or Alertpay? How do I open an account with them?

Answer: Alertpay and Paypal are very simple online payment processors used for

selling things online from websites. To open an account, you just need to visit their respective websites at: www.PayPal.com or www.AlertPay.com. Select an account type based on your specific needs.

The email address that you supply will then be added into the ebook so that the \$27 payments go directly to your account where they can be transferred immediately to your bank.

Question: So I don't need to change the ebook myself or upload anything to a website?

Answer: Absolutely not! Everything gets done for you. You don't need to do anything besides send people to your website and collect your money. There is no special re-branding or uploading of anything. Remember this is designed to be simple and easy.

Question: Will I ever have to give refunds to people who buy from my book?

Answer: I actually can't imagine why anybody would ever ask for a refund as absolutely everything is fully disclosed before they buy.

However, no, there are never any refunds from purchases of this product. You'll never have to worry that someone will come to you and ask for their money back. The product on sale is a collection of digital information books and software that is impossible to really return once they are downloaded. **Everyone who buys the package agrees that they can not request a refund. All sales are final, which means you always keep every penny.**

Question: What if someone has a problem with the download of the software package?

Answer: Don't worry, they'll never contact you. **I deal with all the customer support issues for you.** I give out my email address to all customers in the members area, so they'll come straight to me if they ever have any problems or even just questions they need answered.

Question: What if someone has a question about the system or how it works?

Answer: Almost the same as above. This is the really great part. They will never email you with any questions...they come straight to me and I do all the answering for you. **I will actually do my best to close the sale on your behalf. I will do the work and you will make the money. I never get a penny...ever!**

Question: So how long will it take me to set this up?

Answer: From hitting that payment button to filing out the simple form with your Paypal or Alertpay email address will be less than 5 minutes. From there, I will have **your website live and online within 24 hours.**

Typically, I will have your website live in a matter of hours, but sometimes, due to the

volume of orders, it may take a little longer as all websites are manually made active.

I think 24 hours or less (guaranteed) is a short time to wait for a turnkey business that will pay you over and over again almost effortlessly.

NOTE: To make this process more streamlined and to get your website online quicker, I ONLY use domain names registered through GoDaddy. It's simply too time consuming to learn the many different back-office control panels of the countless host providers out there to be efficient.

You can purchase a domain name from GoDaddy for as cheap as \$.99 for a .info domain name.

I do personally host your website, (ad free) for life. There is a one-time \$10 setup fee and you don't pay that until you get to the members area. You just need to purchase your domain name through GoDaddy.

Question: No way, I still can't believe this is real!

Answer: OK, why don't you email me with your questions and see for yourself that there is a real person ready to help behind this idea. My email address is:
laurynherbert@instantnewbieprofits.com

Question: It sounds like it's probably a good deal but I'm going to have to think about it as I really don't completely understand it all yet.

Answer: Thinking about it is good. I often even "sleep on something" overnight if I have questions but let me take a minute and give you a quick summary that might make this whole thing easier to understand.

Selling on the Internet is hard. There is a lot of competition and many of those competitors are very experienced and have deep pockets for advertising.

Giving something away for free, especially something like a book on **how to make money is easy.**

You still with me? Something HARD vs. Something EASY

Many people will take you up on your offer for this free book on how to make easy money online and then will be exposed to this simple system, where they will not need to create or even upload a website, do not have to worry about products or delivery, do not have to deal with any customer support issues and **they receive 100% of the money – no splitting with anybody.**

Also, they receive a collection of software, ebooks and marketing tools that are currently being sold online for over \$1000 and this has to be a great deal for them even if they end up personally using only 2 or 3 of them.

Finally and very important is you receive my marketing and training materials, which are packed with information on how to use no-cost and low-cost methods to drive a ton of traffic to any website. This alone contains some of the best information condensed (yeah, I've taken out the fluff and filler) on driving traffic to your website.

So, a complete turn-key online business, over \$1000 worth of Products that you can use and resell, Marketing Tools, Video Training Tutorials, My Personal Help and all for a one-time investment of only \$27 – a domain name purchased and registered through GoDaddy.com and a one-time setup fee to have your website displayed online and hosted for life!

All they have to do is click the “Get Me Started” link and they are in business and you have \$27 in your Paypal, or Alertpay account just like that.

Believe me --- Making money online just does not get any simpler or easier than this.

Question: OK, this sounds good, but how long will it take for me to get started? I need money right away.

Answer: A good question but almost impossible for me to answer as it depends so much on the individual. I have people all of the time that email me saying how they bought the system a week ago or 2 weeks ago and are just now looking at everything and have a question.

If you are one of those people and let the information collect virtual dust on your computer then it could be a very long time indeed before you make any money.

On the other hand, if you immediately dive in, place an ad using one of the pre-written ads from my extensive “free marketing tools” section of my members area on Craigslist (yep, one of the free places I love) and use my special ***Focus Technique** in your ads as taught in my Quick-Start Marketing Guide, then you could easily have a couple sales overnight with the cash sitting in your Paypal, or Alertpay account waiting on you by breakfast.

Question: What if I buy this and then need some help writing my ads or something like that?

Answer: The Free marketing Tools and my New Strategic Marketing Plan includes suggested ads that have already been tested and proven to be very effective and all you really have to do is copy and paste. However, I am usually pretty close to my email on 6 days of the week (never on Sunday) and I'm always ready to help and give suggestions on any marketing challenges you may have.

Question: OK, I believe you. This really is the best thing I've ever seen. I'm still in shock but I'm not going to waste another minute...how do I get started?

Answer: All you have to do is click on the “Get Me Started” link below and you will be done in just a few minutes.

You will be amazed how easy and simple this is but remember that I am personally only an email away if you have questions or need help.

If you are still not sure if this is the right thing for you, then go ahead and read this ebook again. Sooner or later you are probably going to realize that this is flat out the easiest way to generate some fast, extra cash that you will ever find.

That's all there is to it.

Becoming a Computer Expert In 7 Days

Worried that your computer crashes or doesn't print especially when you're working on an important project?

It's hard to believe that computers are so common in our society, yet few users know what to do when they have problems with their ever-so important PC.
